EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Amir R. Rohani on 7/29/08.

The application has been amended as follows:

2. Claim 1 has been amended and the following changes are shown below with the proper status identifier:

1. (Currently Amended) A vacuum cleaning head comprising a housing, an agitator for agitating a floor surface, a chamber disposed in the housing for rotatably receiving the agitator, an opening formed in a portion of the chamber adjacent the agitator facing a floor surface, an air turbine driving the agitator, an air inlet in the housing admitting clean air to drive the turbine, and a restricting device arranged in a discharge outlet from the chamber, the restricting device comprising a guide vane projecting outwardly from a wall of the discharge outlet, the guide vane being configured to restrict a cross-section of the discharge outlet in a restrictive position, the guide vane being configured to be resiliently movable with respect to the wall of the discharge outlet to an open position in response to a flow of debris past the restricting device to restrict the cross-section of the discharge outlet to a lesser extent, the restricting device being further configured to return to the restrictive position after the passage of said debris.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

a. The following invention is neither anticipated nor rendered obvious because the present invention has a guide vane which is configured to be resiliently moveable when debris hits from a restrictive position back to a resilient position and prior art discloses restrictors which are activated to control flow and do not resiliently respond to either air flow or debris because they are designed to control flow by directing to a specific passage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LEE D. WILSON whose telephone number is 571-272-4499. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, JOSEPH HAIL can be reached on 571-272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
